

Product Discontinuation Notification

Product Change Note

May 2019

This is to update the former product change note from December 2016 regarding the change of the data acquisition card used in the EpiTT/EpiCurve®TT and Pyro 400 product families as of Q2/2017. The spare part supply has been updated and as of May 2019, no NI PCI-6025e cards can be purchased from National Instruments Corporation.

1 Critical Dates

Effective Date	
Last time order date*	30.06.2017
Last time service**	Spare parts supply ended in May 2019.

*Last time order date depending on product availability.

**Last time service depending on product availability.

2 List of affected products and suggested replacements

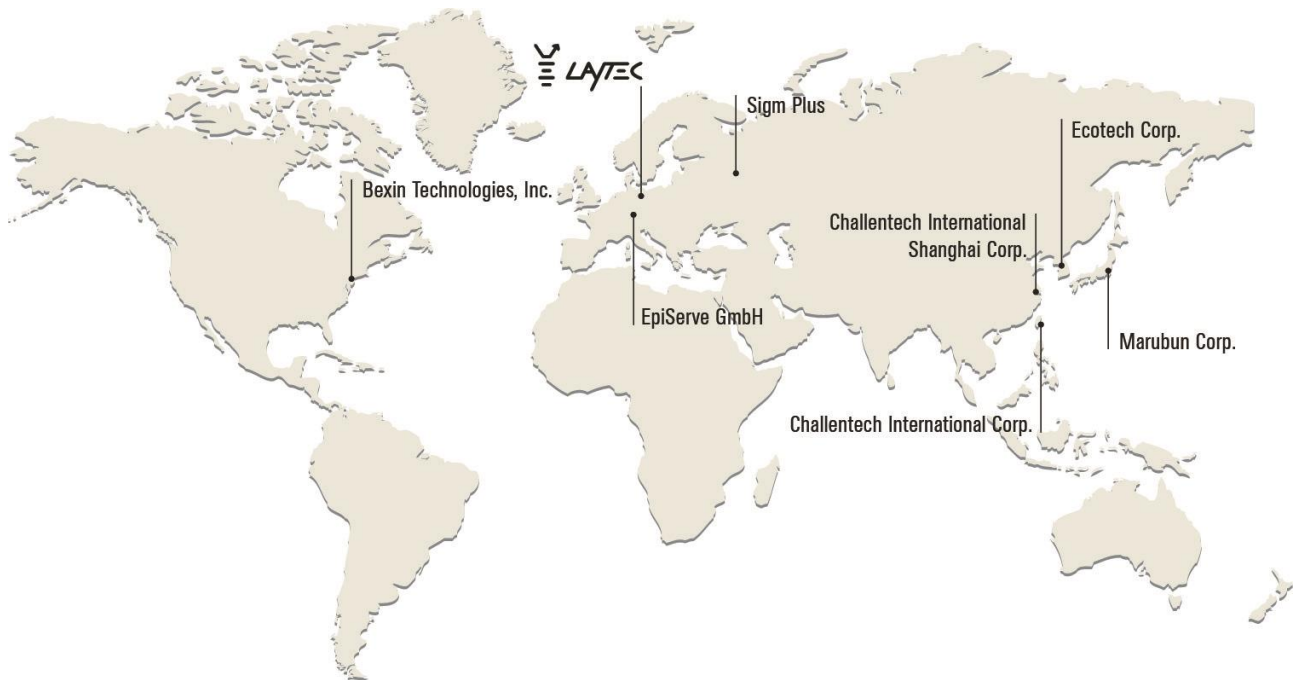

All measurement PC with NI PCI-6025e data acquisition cards are affected. Should you need a PC replacement, you have the option to

- A. Order a new PC, it will be shipped without NI PCI-6025e card and the LayTec support will use your card on-site in the new computer.
- B. Order a new PC and send the old one back to LayTec and you will get the new PC shipped, equipped with your old NI PCI-6025e card.
- C. Upgrade your system to the newest version of LayTec SDAQ.

We apologize for any inconvenience this might cause.

Should you have any questions, please contact LayTec directly or your local LayTec representative.
